

PIPI 'STOP

STOP PIPi accustoms the dog and cat not to dirty in unwanted places. It is sprayed directly on surfaces: floors, walls, plants, gates, car tires, windows, courtyards, gardens, etc.

It is harmless to people, animals, plants, flowers and flower beds. The particular formula gives the product a long active effect with the result of keeping dogs and cats away from previously soiled places.

METHOD OF USE AND DOSAGE

- Clean the area to be treated from any residues left by pets;
- Shake before and during use;
- Spray the product abundantly from a distance of about 20 cm;
- Repeat the treatment $\frac{3}{4}$ times (as needed).
