

SUPER WHITE - SUPER LAUNDRY

Superbianco- superbucato is a powder additive that is added to normal detergent.

Sanitizes and at the same time contrasts the natural yellowing that occurs over time on all cotton, wool, silk or synthetic garments.

Its special cold active formula removes halos and eliminates stains, giving garments a new life.

ADVANTAGES

- Superbianco- Superbucato is an additive that is not harmful to fabrics, skin and the environment;
- Does not contain allergens
- It does not contain phosphorus
- It does not pollute the environment: it decomposes into substances found in nature

METHOD OF USE AND RECOMMENDATIONS

Add together with the detergent to the special compartment of the washing machine and proceed with the normal washing.

For use on clean garments, it is advisable to dissolve the additive in water and leave the garments to soak to whiten them thoroughly.
