ACTIV

FOAMING ALKANINE DETERGENT ADDED WITH ACTIV-CHLORINE

USE

ACTIV is an activ-chlorine liquid, prepared for cleaning and disinfection of floor, bench, work shelves, and various equipments. The special formulation based on chlorine, allow to get in only one phase: certain hygiene and deep cleaning. **ACTIV** is particularly studied to seep through very quickly and remove every kind of dirt, like: greasy, soap-residue, ink-stained and food-stained, from: floors, tables, work-shelves, equipments and so on.

BENEFITS

Thanks to his special formulation, **ACTIV** is able to solve a double action in only one operation. It can be quietly named "**CHEAP**", because carry out a deep action of cleaning but simultaneously it gives us a sanitization in all the points where it is applied and so, we can avoid a double job and we can avoid to use further chemical products like: Sanitizers and / or Disinfectants.

ACTIV IS THE IDEAL PRODUCT TO BE USED DURING THE SHORT BREAKS, because the chlorine content in his formulation, vanishes on air. after that it has carried out his action of cleaning and sanitization, **ACTIV** fall within the standard fixed from the **Law 155/97 (European Community) named "Hygiene law"**.

ACTIV cut the possibility to have corrosion on the metallic equipments thanks to the inhibitors agent included in his formulation.

For this peculiarity it makes possible and easy all the cleaning operations.

ACTIV is not toxic if it is used according with the directions for use, **ACTIV** it is not irritant on the skin and don't cause smokes or toxic vapors.

ACTIV don't cause damages on the materials that are generally used in the modern flooring, or on the stainless steel equipments, iron, and so on.

ACTIV don't contain solvent-agents based on mineral oils. **ACTIV** is flameproof. Consequently are not required special care like: No-Smoking or a good ventilation.

ACTIV it can be used into all the places where it is possible to use water without to cause damages. All the surfaces: tiled, painted or metallic surfaces, walls, floors, marble, counters, and similar that are present into houses, offices, schools, churches, hospitals, nursing homes, shops, alimentary-factories and so on. All this activities needs **ACTIV** for a careful cleaning and a safety Hygiene.
