

CONTAINER

USES

CONTAINER is used to clean, renovate and deodorize dirty surfaces by garbage. It is used for floors, machinery and equipment commonly used for collection and transportation of waste such as boxes, trucks and other motor vehicles.

ADVANTAGES

CONTAINER is unique, because it is a very effective mixture of solvents, penetrating agents, wetting agents, synthetic detergents that attack the molecular structure of the filth, of the patinas, of the fat layers of gummy residues, of grease absorbed, and anything that creates adhesiveness of the filth binders; it cleaves emulsifying them, and finally removes them, leaving a pleasant smell of citrus.

CONTAINER is biodegradable is not flammable and does not corrode metals as it contains corrosion inhibitors.

SUGGESTIONS FOR USE

Apply CONTAINER in spraying solution on the surfaces to be cleaned, let penetrate for a few seconds, then rinse and / or wipe with a cloth.

CONTAINER Parts	A / 2;	B / 6;	C / 10;	D / 14;	E / 18;	F / 50;
parts of water	1	6	10	14	18	50

presses A. Ducts and filters... .. B / C Vehicles' parts ... A / F Pieces of tools and panels ... C
Guardrails, containers and collection equipment of garbage..E / B Pulleys , winches, cranes ... A / C
Chains of transmissions, caterpillar ... B.
